Large Room Priority Policy - Large rooms are no longer assigned on a first come, first served basis. Rather, requests for large rooms are granted according to the following criteria:

1. If the large room is part of a department's regular allocation (including PACE), that "home" department gets priority for classes for which the enrollment limit matches the room capacity or the special features or equipment in the large room necessitates the home department providing instruction in that particular room.
2. Classes from other departments for which a "Request for Large Class Credit" have submitted and for which the enrollment limit matches the room capacity.
3. Classes from the "home" department with enrollment limits that are less than the room capacity.
4. Classes from other departments with enrollment limits that are less than the room capacity.
5. Community Services, Encore, or other users, after credit classes have been scheduled.

Rooms currently classified as "Large Rooms" are:
