

## How to Login to Pierce Student's Wi-Fi and First time reset of the student LACCD email password

The Pierce College Student Wi-Fi access is based on the student LACCD email account. You should first make sure you can sign in at the SIS MyCollege portal login screen (as seen below) by clicking on this hyperlink or typing it into your browser:

<http://mycollege.laccd.edu>

If you cannot login with your previous password, it may be because the District is requiring more secure passwords these days and you will have to follow the reset instructions first. If you can already access your student LACCD email account, then proceed to **“Logging into Pierce Student's Wi-Fi from your smartphone”** instructions that begin on page 5.

If you'd like to see the next few steps on YouTube, see here:

<https://www.youtube.com/watch?v=uUbeMhH4000>

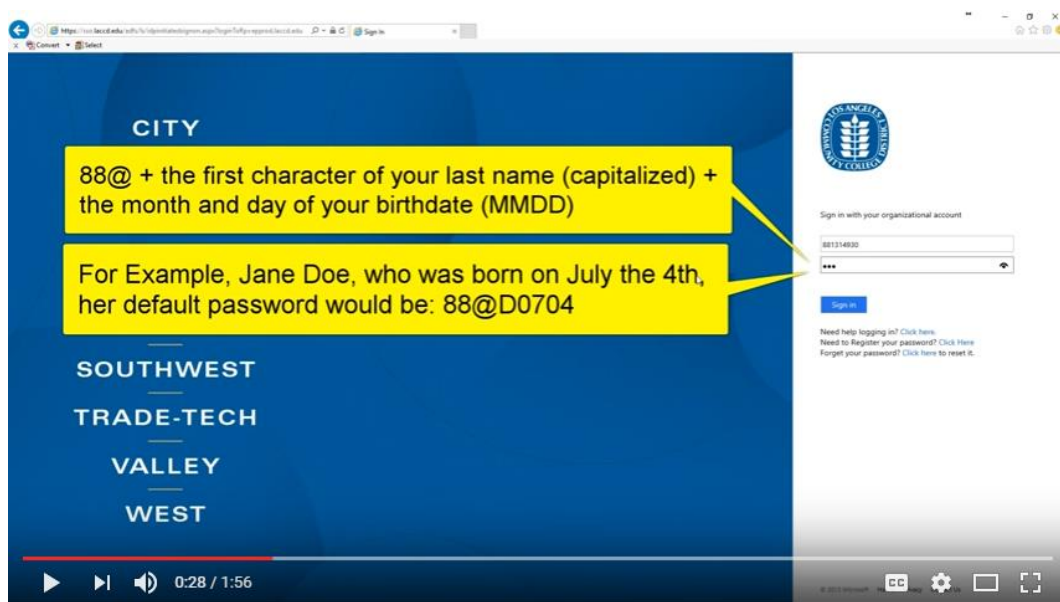

Sign in with your organizational account  
Example:  
Students = 881234567  
Employees = SmithJ

[Forgot your password? Click here.](#)

**Even if you've logged into this portal before (for online Office 365 email) you may have to reset your password. If you haven't already done so, follow these instructions.**

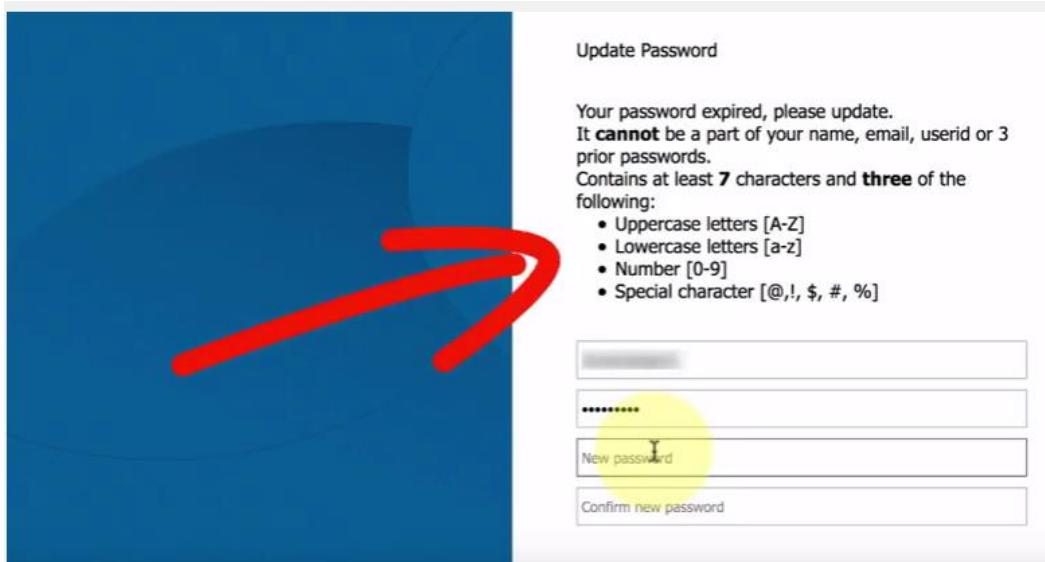

Using your '88' student ID or student LACCD email ID, student default login passwords will be the following format:

For example, Jane E Doe, who was born on July the 4<sup>th</sup>, her default password would be: **88@D0704**.

For more info on the required password reset, click here:

<https://www.laccd.edu/Students/Documents/Student%20FAQ/how-to-login-portal.pdf>

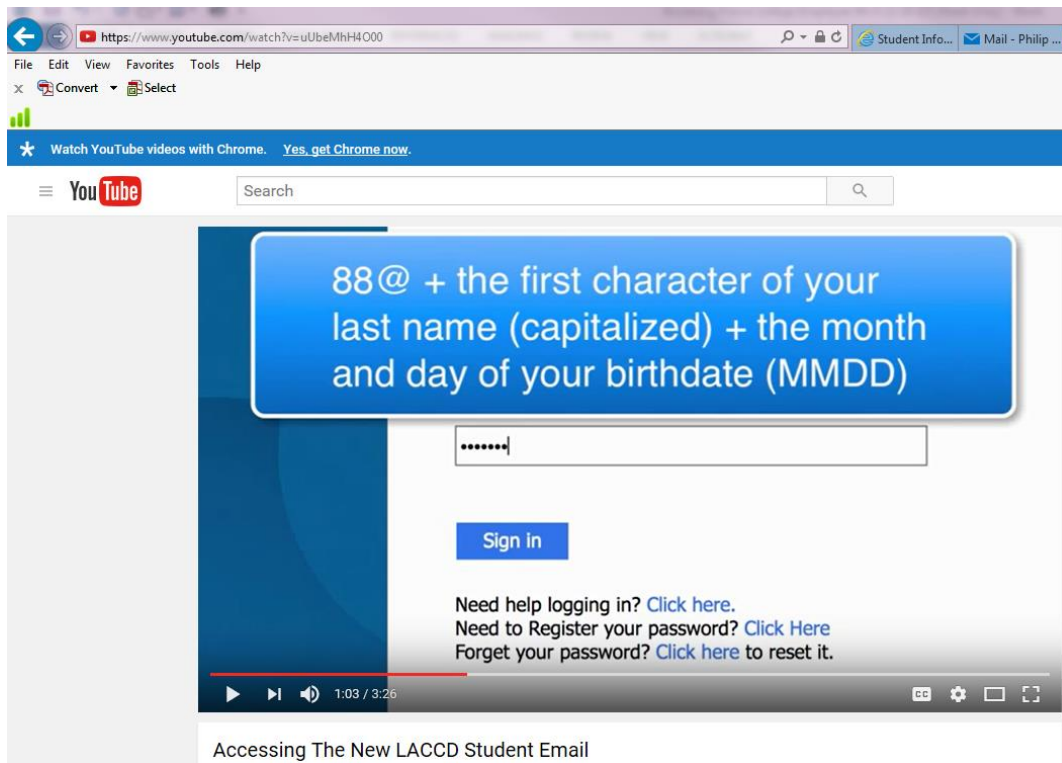

The screenshot shows a web form titled "Update Password". On the left, there is a large blue rectangular area. A red arrow points from this area towards the text requirements on the right. The text reads: "Update Password", "Your password expired, please update.", "It **cannot** be a part of your name, email, userid or 3 prior passwords.", "Contains at least **7** characters and **three** of the following:", and a bulleted list of requirements: "• Uppercase letters [A-Z]", "• Lowercase letters [a-z]", "• Number [0-9]", and "• Special character [@,!, \$, #, %]". Below the text are four input fields: a blurred one, one with asterisks, one labeled "New password", and one labeled "Confirm new password". A yellow circle highlights the "New password" field.

Once you have successfully logged in <http://mycollege.laccd.edu> you will then be prompted by the update screen to re-enter your 'original' password (88@D0704 for example) and then enter a new complex password twice.

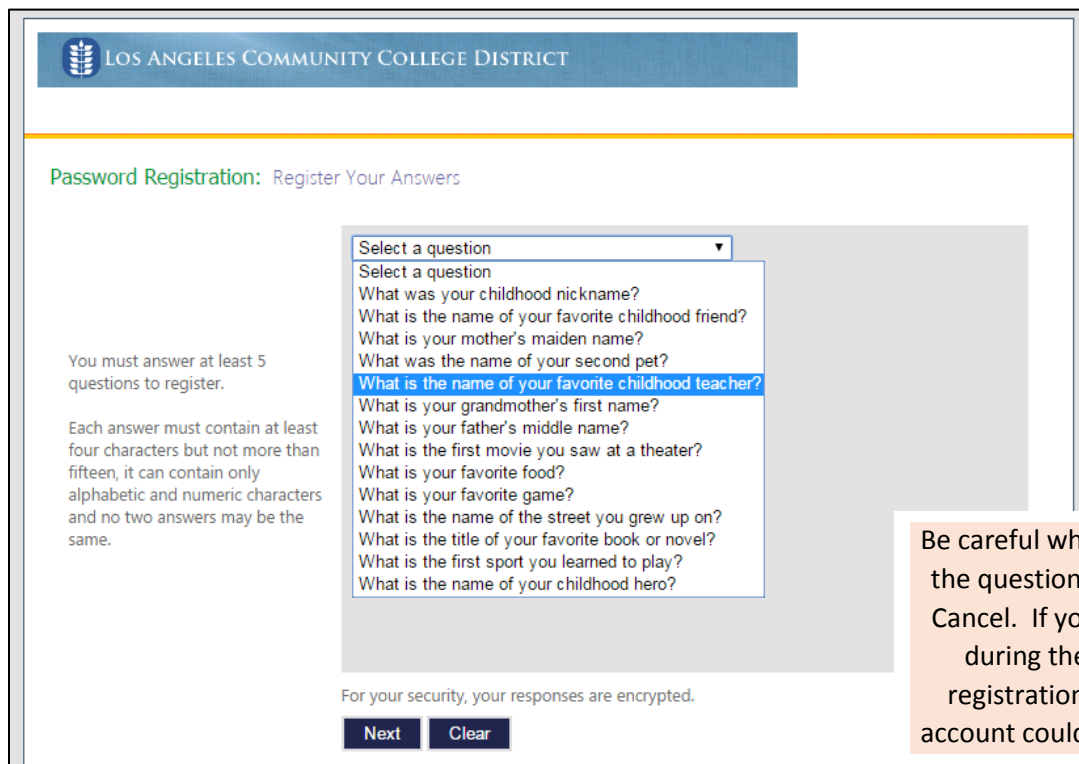

New password must contain at least seven characters and **three** of the following:

- UPPERCASE letters (A-Z)
- Lowercase letters (a-z)
- Number (0-9)
- Special character (such as: !,@,#,\$)

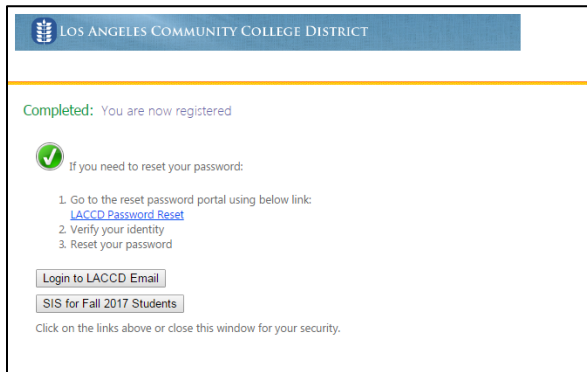

Additionally, you may not use your prior three passwords as your new password.

Once you've reset to an original password, you will be prompted to enter 5 security questions, as seen below.

Be careful when completing the questions **NOT** to click Cancel. If you click Cancel during the password registration, your email account could be locked up.

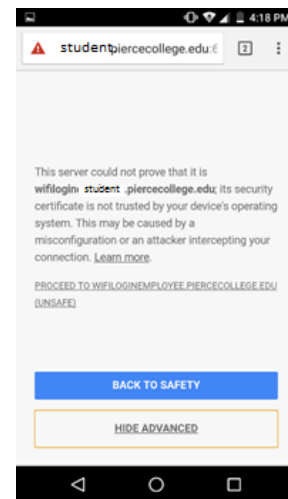

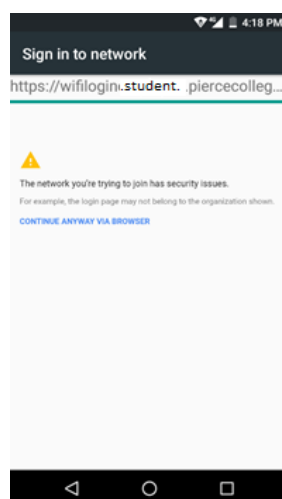

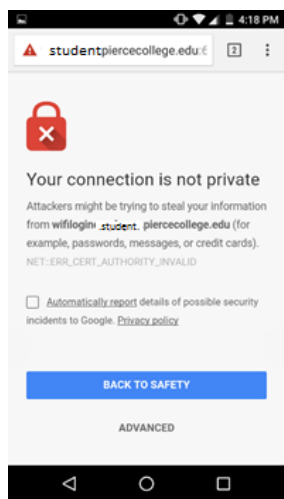

You will then see the following screen confirming the password reset and you are now set to login to the campus student's Wi-Fi.

## Accessing Pierce Student's Wi-Fi from your smartphone

Now you can access the Wi-Fi settings on your phone and select **Pierce-Wi-Fi-Students**. You should then receive a prompt on your smartphone to login. If you're an Android phone user and don't get prompted, you may have to follow these extra steps near the end of this tutorial to disable mobile/cellular data temporarily\*

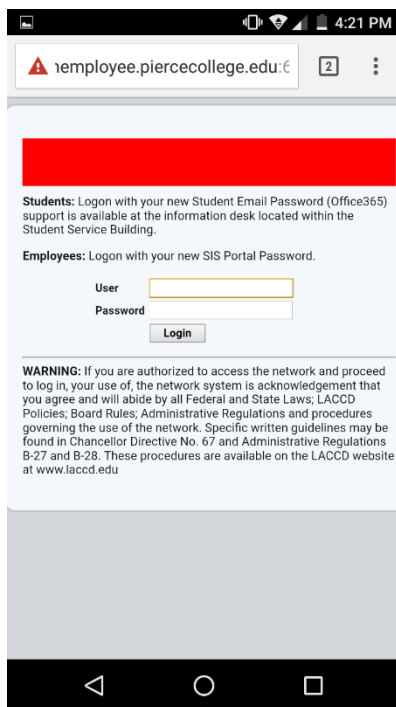

Also if you're trying to connect to the Wi-Fi from a laptop or a tablet, you may not get prompted at all to login when you first connect. In that case open a browser (like IE, Chrome or Firefox) and click to proceed past the security warnings until you get to the login screen.

On the smartphone you may see a warning message "that this connection is not private." If this occurs you can elect to click "OK" by tapping on the 'Advanced' button, then 'CONTINUE ANYWAY VIA BROWSER' and then 'PROCEED TO WFILOGINSTUDENT\_PIERCECOLLEGE.EDU

You will then be brought to the actual and factual screen where you can login with the student LACCD email account username and password as mentioned in the first few steps.

Note: For now, you can login to Pierce Student Wi-Fi with your '88' student id or your email address. But you **MUST** use the student LACCD email account password, **NOT** the 4 number pin code! You can view your email address from within the student LACCD email or from the home page on the SIS portal\*\* if you don't already know it, see page 7 for more steps.

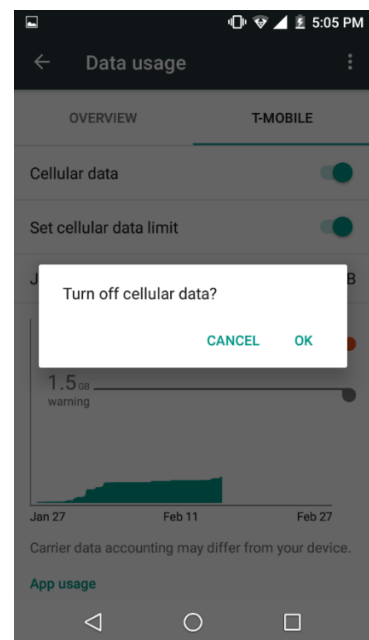

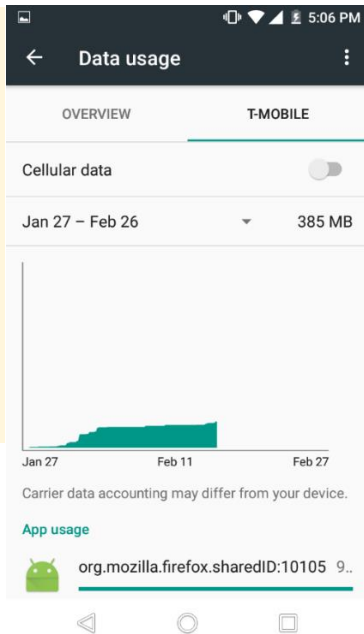

Once logged in, you should now be able to open up a web browser (Chrome, Firefox, Safari) with campus Wi-Fi access.

Having problems still? Did you reset your student LACCD email password? Make sure you can login at the student LACCD email site before you try the Wi-Fi login. See first few instructions above.

\*Note: Some Android phone users may have to turn off their mobile cellular data to receive the Wi-Fi prompt to login, such as shown on the screen below:

For Android phone users, you should now be able to turn cellular data back on again once you're signed in, if you had to turn it off to get to the Wi-Fi prompt.

**\*\*If you don't already know your student LACCD email id, you can get it from the home page of the SIS portal (where you can login with your '88' number and 4 digit pin to check grades, add/drop classes etc.) or if you login to student LACCD email with your '88' id and email password and look up your contact info.**

You can reach this SIS Portal here:

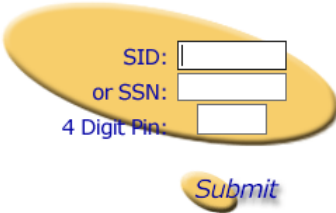

<https://eweb4.laccd.edu/WebStudent/signon.asp>

If you haven't logged into this system your PIN is your (MMDD) birth month+birth day. If you still can't login to the SIS Portal, please contact Admissions and Records for a PIN reset.

---

<b>Main Menu</b>	<b>LACCD</b> 
------------------	--

<p><b>Student Information System</b></p> <p>In this system, you will be able to add or drop classes, see your class schedule, grades, fees, etc.</p> <p><b>Student Identification Number</b></p> <p>Enter your new 9-digit Student ID number that begins with the numbers "88". This number is your Student ID for all nine colleges within the Los Angeles Community College District. If you do not remember your new number, you may still enter your former Student ID number that begins with '000' or your Social Security Number.</p> <p><b>Personal Identification Number</b></p> <p>We need your Personal Identification Number (PIN) for security reasons. If you haven't already changed it, your PIN is 4 digits (MMDD format) from your birthdate. For example, if your birthdate is January 31, your PIN is '0131'.</p>	 <p>SID: <input type="text"/></p> <p>or SSN: <input type="text"/></p> <p>4 Digit Pin: <input type="text"/></p> <p><a href="#">Submit</a></p>
---	--

Once you login to the SIS portal, your email password will be the first thing you see:
